

IN LOVING MEMORY OF MY SWEETEST GIRL
DIXIE

Dixie was another lovely pet that was sent to me through the BCCR.

Dixie was my best friend. She volunteered with me and her brother Scooter and Sister Baby for two years in Palliative in St. Paul's, then with the home team at FFL for eight more. She went in the gay pride parade representing the Friends for Life Society, for three years and was very loved by many people. That was her little miracles, I know all of our pups are, but this is my letter for my girl Dixie.

When Dixie slept at night it was none of this go under the blanket and sleep at your feet, Queen's don't do that. She slept right up as close to my heart as she could get I was frozen into position for twelve years so I could have my baby girl there with me. It is hard to get use to her not being there, but time will heal. I still have my Scooter, also through the rescue, and he is only to happy to fill the void.

So I am being cared for by my last little one, pray he stays for a few more years. All my dogs were almost the same age, and their time is coming to an end. They have been the greatest joy a person can know. As and animal lover it has been my life time of having pets, that makes me understand that when the time comes the right one will come along.

Lots of love Dixie, you will never be forgotten.

To my two dearly departed, girl, Scooter and I miss you.
